HOBBIES & INTERESTS

1. **Entrepreneurial Thinking** – developing ideas for self-sustainable housing estates where each aspect operates as a standalone company. This hobby has sharpened my creativity, problem-solving, research, and pitching skills, while nurturing an interest in sustainable innovation.
2. **Creative Expression through Doodling** – sketching abstractly during learning sessions as a way to focus and enhance memory retention. This practice builds attention to detail, personalizes my study materials, and allows me to connect uniquely with my work.
3. **Reading & Personal Development** – reading widely across fiction and reality-based works, which has expanded my critical thinking, empathy, and adaptability. Combined with journaling and meditation, this interest has improved my quality of conversation and helped me structure my daily routines effectively.
